This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### NFU MUTUAL UK EQUITY INCOME FUND, CLASS C SHARES: INCOME (SEDOL B82F882) A SUB-FUND OF THE NFU MUTUAL OEIC

The fund is managed by N.F.U. Mutual Unit Managers Limited, a subsidiary of The National Farmers Union Mutual Insurance Society Limited.

#### Objectives and investment policy

##### Investment Objective:

- To produce an income in excess of the FTSE All-Share Index with some capital growth which results in a total return, net of fees, greater than that of the FTSE All-Share Index over a rolling 5-year period, by investing in UK equities. However there is no certainty that this will be achieved and your capital may be at risk; actual returns may be higher or lower.

##### Investment Policy:

- The Fund will invest at least 80% and up to 100% in a diversified portfolio of company shares (equities) domiciled in the UK (or whose business activities are predominantly in the UK/the majority of their revenue is derived from the UK but which are domiciled or quoted on a market outside the UK). The shares held can be from companies in any sector and of any size, including smaller companies which may be less liquid and subject to greater price changes. Investment decisions will be made based on long-term (5 years +) expectations of performance and stability with a bias towards stocks with the potential to deliver above average and/or growing dividend income.
- The Fund may also invest up to 20% in other Transferable Securities, Money Market

Instruments, Collective Investment Schemes (including other funds managed by N.F.U. Mutual Unit Managers Limited), Deposits, Cash and Near Cash.

- The Fund is actively managed.
- The Fund may use Financial Derivatives to reduce risk and cost in the Fund, including through hedging or to generate extra income or growth.
- The FTSE All-Share Index (the benchmark) has been selected as it is a widely used weighted index and representative of the types of companies in which the Fund is likely to invest. The Fund is not constrained by the benchmark or managed to it and has flexibility over the benchmark constituents it holds. Differences in holdings including the bias towards higher income stocks may lead to fund performance varying from the benchmark index which has no such bias.

##### Other information:

- This fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- You can buy or sell your shares in the fund on each working day.
- Income will be paid four times a year at the end of February, May, August and November.

#### Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.

- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.
- The fund is in this category because the prices of UK shares have moved up and down frequently and significantly in the past.
